

BLUETOOTH SPEAKER CLUB

This immediately creates a party mood : the Grundig Club Bluetooth Speaker is a really lucky (feeling) charm – in black or coral. Thanks to the extended Bluetooth coverage area, you can stream your favourite music up to a distance of 20 metres – without interruption and loss of quality. A total output power of 20 W RMS with extra strong bass ensures that your music enjoyment goes on and on. True Wireless Stereo guarantees you sound in stereo quality, because the unique Bluetooth V5.0 function allows you to connect two speakers. With its waterproof housing, the device defies any weather.

- Telephone hands-free function
- Smartphone charging function thanks to the power bank
- Waterproof housing (IPX7)
- True wireless stereo

Sound performance

With a total output power of 20 W RMS, the Grundig Club Bluetooth Speaker provides impressive sound and extra fat bass thanks to the dual passive radiators.

Battery life

The Grundig Club Bluetooth Speaker works a 30 hour week in one go. This is how long you can enjoy music with the device thanks to the rechargeable lithium polymer battery with 5.0 volts and 1.0 A. Plus, thanks to the integrated LED display, you always know what the battery level is.

Powerbank function

Guaranteed for waterproof pleasure; the Grundig Club Bluetooth Speaker won't let its party mood be spoiled by a heavy summer cloudburst. The protection class IPX7 of its housing stands for this.

Technical Specifications
